

## APPENDIX B

### Vanguards – New Models of Care

#### Description of the 5 new models

1. **Integrated Primary & Acute Care Systems (PACS)**– joining up GP, hospital, community and mental health services
2. **Multispecialty Community Provider (MCP)**– moving specialist care out of hospitals into the community
3. **Enhanced Health in Care Homes** – offering older people better, joined up health, care and rehabilitation services
4. **Urgent and Emergency Care** – new approaches to improve the coordination of services and reduce pressure on A&E departments
5. **Acute Care Collaborations** – linking local hospitals together to improve their clinical and financial viability, reducing variation in care and efficiency

Acute Care Collaboration	Liverpool (Acute Block Contracts)	<p>Liverpool and South Sefton CCGs have agreed block contracts with six trusts over the next two years, with a total of £1.5bn. The trusts will receive a 1 per cent real terms growth in 2017-18. This represents a significant move from payment by results and is aimed at sharing risk across the health economy to encourage cooperation and transformation. HSJ reports that there has been an increase in the use of block contracts in elective care in recent years, and this is now being extended to include non elective care. NHS England has allowed this shift.
