What has been done to #ourNHS since 2010?

- **FROZEN** budgets since 2010 while costs rose 4% per year, and population increased by 4 million.
- **FIVE MORE** years of freeze planned to 2020 **reversing** the big investment made in 2000-2010
- NHS pay frozen or below inflation each year since 2010 a
 real terms cut of 16%
- 9,000 front line hospital beds closed already. Thousands more threatened by Sustainability & Transformation Plans
- 20% Mental Health beds cut
- budgets cut as services stretched
- Hospital trusts paid 20% less in real terms for every treatment
- Desperate shortages of GPs as more tasks piled on to primary care
- Cancer waits up: 2-week &62-day treatment targets missed
- **£9 billion per year** wasted on NHS care in private hospitals.

£3 billion wasted

implementing the 2012 Health & Social Care Act, entrenching costly & bureaucratic market in health care

- **£ billions** more wasted since on tendering, management consultants, lawyers, spin doctors and other overheads of 207 CCGs
- A&E waiting time targetsmissed for well over a year
- Growing list of treatments no longer available in some areas
- NHS bursaries scrapped
- As Brexit staffing crisis looms, NHS depends on 50,000 EU-trained professionals: we need them to stay.
- Rural health care facing cuts in local services: some areas face 50-60 mile journeys for treatment
- More costly PFI contracts signed: already £2bn per year in PFI payments from debt ridden trusts goes to tax-dodging bankers.
